1. This application is in condition for allowance except for the following formal matters:

See paragraphs below.

Prosecution on the merits is closed in accordance with the practice under *Ex* parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO**MONTHS from the mailing date of this letter.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 1, line 4, it is not exactly clear as to what is meant by "before being used and once for all". Re claim 8, the phrase "the water containing the dirt" is without proper antecedent basis.

- 4. Claims 1-10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
- 5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Twilley, Scruggs, Breen, Meneghini et al., Kawai et al., Ruvolo et al., Gaeth et al., Schmidt, and Germany'709, note the fabric treating/modifying means.
